

# GET CONNECTED

A big part of getting things done and raising awareness is working together. Zanzibar is full of people and groups working with different waste projects. The organizations and people listed below can help you to learn and do more, and you can help them, too! Be sure to ask about information material, workshops or how you can get support for your ideas - many people are happy to help!

## **ACRA**

PO Box 3067 Vuga, Stone Town  
tanzania@acra.it  
www.acra.it
